*** To ensure the highest print quality possible, we require all images to be at least 300 DPI and we prefer a .tiff format. If your images are under 300DPI we will process them as submitted, however, we cannot guarantee the print quality of these lower resolution images. Photographs work best. We are a non-profit volunteer group and do not have the staff to contact you if your images is not a high resolution file, so we strongly encourage all images to be a minimum of 300 DPI.
